

Mann Studios

We create cinema.

Mann Studios is an independent film studio in Petlawad, Madhya Pradesh, founded in March 2026 by Mannish Patidar. We write, shoot, score and cut our own work. Seven titles are finished across social drama, crime, horror and music video, with thirteen projects in development across feature films, web series and micro drama.

We are small by choice. Fewer films, made with more care, for an audience that still sits through the credits.

THE FACTS

FOUNDED

March 2026

FOUNDER

Mannish Patidar

FOUNDER · STORY & SCREENWRITER

An MBA in sales and advertising, then the family business – but music and films had been on his mind since he was a kid, and that never went away. He set the business up to run largely on its own, which freed him to take the film work seriously. Three years as a wildlife photographer, cinematographer and writer led to Mann Studios, and he writes every script the studio shoots.
